This Aspen condo's modern kitchen is designed to embrace its homeowners' culinary passions: coffee and wine. Bulthaup cabinetry wraps the room in a minimal palette, with stainless steel on the island's bar top, stone-gray laminate panels on the island and countertops, and a back-painted glass backsplash, all trimmed in Bulthaup's signature aluminum. "The homeowners were really the drivers for the feel of the space," interior architect Dana Ellis says. The kitchen, therefore, features a countertop espresso maker (with milk-foaming capabilities) and two wine refrigerators. Prouvé barstools invite guests into this exclusive cafe. »

DESIGNER'S PLAYBOOK

Find the power in creating beautiful moments in your home.

You can do it with an arrangement on your dining room table or soaps and shampoos in the bathroom. Looking at those things mindfully and seeing the beauty—for me that is very powerful.

DESIGNERS: DANA ELLIS, AIA, INTERIOR ARCHITECT, ROWLAND+BROUGHTON
