The Little Nell in Aspen

THE LITTLE NELL

As beloved as Aspen is in winter, many argue it's [even better in summer](#). The weather is glorious, the scenery gorgeous, and the calendar full of cultural events, from the Aspen Music Festival to the Aspen Ideas Festival. Recently, the Little Nell did a short renovation to its lobby and living room with the help of design firm Champalimaud, along with a refresh of its casual restaurant, Ajax Tavern, by Rowland + Broughton. The hotel reopens on June 7, just in time for Father's Day. The warm months in Aspen are prime time for a full slate of options for active, adventurous fathers. You can hire a guide for a custom fly fishing trip in Roaring Fork Valley, take an off-road tour to the 11,200-ft high summit of Aspen Mountain, or rent a bike to cruise down Rio Grande Trail. Once you return, Little Nell has a robust wine program led by its new wine director Chris Dunaway, who will take you on a tour of the wine cellar and organize a well-deserved tasting after a full day of activities. *From \$610, thelittlenell.com*
